CONNECTING YOU TO THE CITY YOU LOVE

It started with a partnership. Good people coming together to build great communities. With an extensive background in real estate finance and development, HAVEN Developments reflects its storied history against an innovative and original backdrop.

At HAVEN, we build properties that not only feel like home, but connect you to the city you love. Being connected is something we achieve in proximity to transit, nature, and amenities. With the strategic use of our core philosophies, we are able to create communities that complement and enrich the lives of our homeowners.

As shareholders in our developments, we are genuinely committed to the success and quality of each home we build. Through our involvement in every aspect of a project, we maintain the highest standards of quality control along the way.

4HUNDRED EAST MALL Town Homes is our latest project connecting you to the city you love. One of our most distinctive philosophies is that we only build in locations with superior access to transit. Located at Burnhamthorpe Road and Highway 427, a five-minute drive from Toronto Pearson International Airport. This location is conveniently connected by curb-front TTC bus service connecting to Islington and Kipling subway stations, immediately to the south.

OUR DEVELOPMENTS

At HAVEN, we develop residential and commercial properties that keep you **connected to the city you love.**

University Heights Professional Centre was the answer to increased demand for commercial real estate in Toronto. Strategically located at 1275 Finch Avenue West, the building is in close proximity to Yorkdale Shopping Centre, new Humber River Regional Hospital, Downsview Park, York University and most notably the new Finch West TTC Subway and LRT Station. With construction nearly complete, University Heights Professional Centre is leading regeneration in the Downsview Corridor and will open its doors in the Fall of 2018.

SIX25BV's building frame breaks free of the interior and is defined by terraces with outdoor living rooms, creating a bold reflection of the design concept. Modern, warm and inviting, your suite is designed to enhance your every day while providing spaces for socializing with friends and family or curling up in comfort on your own. From parks and trails to shopping and dining, an in-depth look at the most scenic and happening areas and places in Bayview Village.

Mount Dennis Urban Town Homes are located in the revitalized and upcoming neighbourhood of Mount Dennis in Toronto. A new Transit Mobility Hub currently under construction, is just steps away from the property. When construction is completed, the hub will provide access to the Eglinton-Crosstown LRT line, a new GO Transit stop, as well as access to the Union-Pearson Express route.

The Clarkson Urban Town Homes are located at 2200 Bromsgrove Rd., in Mississauga. The development is positioned well among schools, parks, walking trails and different transit options. There is curbside MiWay Bus service available, as well as Clarkson GO Station adjacent to the property.
