

The Peak of Transit

When you live at **Louie Waterloo Residences**, you are connected to wherever you need to go, by any means, at all times. Grand River Transit operates daily bus services in the cities of Kitchener, Waterloo and Cambridge, alongside the ION rapid rail system which has been in operation for over a year. Plus, GO Transit is easily accessible and can bring you to the Toronto core in under 3 hours, as well as dozens of other locations in the Greater Toronto and Hamilton areas. Louie is a 10-minute walk to University of Waterloo Station, where you will find your closest Grand River Transit bus stop – which connects to the ION rail – as well as your nearest GO Station.

This isn't where it ends. The province of Ontario is also moving ahead with a high-speed rail for the Toronto-Windsor corridor, currently in the early stages of planning and design. Investments at Louie Waterloo Residences will strengthen as soon as this project takes off. Upon completion in 2025, the high-speed rail will allow Waterloo residents to reach to Toronto's Union Station in just 48 minutes, and will enable simplified travel to Pearson Airport, London, Windsor & more.

Whether you're searching for a convenient location to live in Waterloo with quick access to the rest of the city and beyond, or looking for the perfect investment opportunity in a fast-growing location, **Louie Waterloo Residences** provides the solid foundation you need to thrive.
